Drywall Framing Accessories

Zinc Control Joint

093 Zinc Control Joints for large expanses of ceiling and wall areas, both drywall and veneer. Excellent for large partitions and from door headers to ceilings. Tape protects 1/4" openings, 7/16" deep; 3/32" grounds.

Packaging for 093

Prod#	Lgth	Description	Pcs/Ctn	Ctn/Pal	Ft/Ctn

Note: A sure seal behind joints must be placed where fire ratings are observed and sound transmissions are a factor.

Resilient Channel

Resilient channel is a highly effective and low cost method of reducing the transmission of airborne sound through walls and ceilings. By separating the drywall from the studs, the channel minimizes the direct path by which sound travels through the framing.
